Cindy's Diary

I live with a horrible step-mother and two horrible step-sisters. They are always making me clean up their messes around the house. My step-mother never lets me go to the ball unless all of my chores are done. I don't like doing my chores around the house.

Lucifer

I live with Lucifer, and trust me, he is a very stubborn cat and a mean one, too. He only listens when he wants, and he only eats mice. I don't really play with him. He tries to rip my bows in half.

The Prince

Okay, I admit that I have a totally big crush on him, but it isn't my fault! He probably will never dance with me at the next ball. He probably likes me, too, but he doesn't want to admit it.

Fairy Godmother

She is a very nice person because she is the one who always fixes me up to go to the ball. I would say the prince and she are the nicest people I have ever met. My Fairy Godmother always makes me happy and always makes me laugh.

Step-Sisters

My step-sisters are very ugly and very mean. They always make me mad because whenever I am done cleaning a floor, they make another mess on purpose. I don't like them at all.
